## ABOUT NATIONAL HEALTH FOUNDATION

National Health Foundation (NHF) is a charitable, tax exempt 501(c)(3) public charity organization. The organization is an innovative leader in improving access to health care by developing projects that promote and support more effective health care delivery and ultimately, better personal health.

For more than 40 years, NHF has addressed health care issues of the underserved focusing on three strategic areas:

- *Underserved children and families*
- *Chronic disease prevention and management*
- *Health care delivery systems*

## THE NEED FOR CONTINUED SUPPORT

With constant changes hitting an already fragmented health care system, NHF has been instrumental in closing gaps in service areas, thereby helping uninsured and underinsured populations gain access to health care.

To continue promoting and supporting more effective health care delivery, NHF must continually address timely issues and develop new programs. Proceeds from this tournament will support these activities and help NHF to fulfill its mission and remain innovative. Your participation is much appreciated.
