# ANNUAL CHARITY GOLF CLASSIC TOURNAMENT

The Hospital Association of Southern California (HASC) is pleased to again host the Charity Golf Classic Tournament at the Oakmont Country Club, Monday, October 5, 2015. This year's event will bring together key hospital representatives and health care leaders in support of a good cause—National Health Foundation (NHF). Event proceeds will support programs that address health care issues impacting underserved communities and those without access to health services.

All players will receive a detailed confirmation prior to the event

## ABOUT NATIONAL HEALTH FOUNDATION

National Health Foundation (NHF) is a charitable, tax exempt 501(c)(3) public charity organization. The organization is an innovative leader in improving access to health care by developing projects that promote and support more effective health care delivery and ultimately, better personal health. [www.nhfca.org](http://www.nhfca.org)

For more than 40 years, NHF has addressed health care issues of the underserved focusing on three strategic areas:

- Underserved children and families
  - Chronic disease prevention and management
  - Health care delivery systems

## THE NEED FOR CONTINUED SUPPORT

The work of National Health Foundation (NHF) continues to make strides in improving the quality and safety of health care Californians receive. With community programs focusing on improving nutrition, preventing obesity, and providing recuperative care, NHF continues to tirelessly help uninsured, and underinsured, populations gain access to health care. Your participation is needed to continue addressing these issues and develop new programs. All proceeds from this tournament go to support the continuation of these activities and will help NHF persevere in its mission to improve and enhance the healthcare of the underserved.

4:30 p.m.	Presentation of Team and Contest Winner Awards Adjourn

## NHF DELIVERS

With programs addressing community health, patient safety, and length of hospital stay, NHF continues to make resounding contributions in quality improvements and cost savings within the health care continuum. Since inception, NHF's Recuperative Care Program saved Southern California hospitals more than \$30 million through cost prevention. Hospitals participating in Patient Safety Frist – a flagship program focusing on improving patient safety – have reduced early elective deliveries, as well as cases of sepsis mortality, ventilator associated pneumonia, and central line blood stream infections saving over 3,500 lives. This work has resulted in over \$64 million in cost savings to hospitals.
