

# CALIFORNIA REGISTERED NURSE SPECIALTY APPRENTICESHIP PROGRAM

## How Our Program Exceeds the Standard

The **California Registered Nurse Specialty Apprenticeship Program** is available in the **Los Angeles region** to prepare new graduate nurses (with less than 6 months of practice experience) and experienced RNs transferring to a new position in the **Ambulatory Care practice specialty**.

- ✓ A structured transition to professional practice, rooted in building skills necessary to succeed in ambulatory care.
- ✓ Expert faculty help foster, mentor and guide professional practice through evidence-based practice and theory.
- ✓ Unique access to a regional community of peer support and ambulatory care leaders throughout the state of California.

## ENROLLMENT INFORMATION

If you are interested in participating, and would like additional information, please contact:

 **Edward Burns, MSN, RN**  
HealthImpact  
Director of Workforce Strategy

## Who is HealthImpact?

HealthImpact is devoted to improving the health of Californians by promoting a dynamic, well-prepared nursing workforce. As nurses we want to help create a system that is responsive to the needs of consumers and provides cost-effective, high-quality care, while promoting health. We are passionate advocates for patients and their families.

HealthImpact will be collaborating with HASC, a hospital trade association, to coordinate efforts and recruit employers to participate in the regional program to meet their workforce needs.

## A Call to Action - Supporting New Graduate Nurses Transitioning to Practice

The California Registered Nurse Specialty Apprenticeship Program is a unique 12-month Transition to Practice Program offered through HealthImpact - California's Action Coalition and Nursing Workforce Center.

The Future of Nursing 2020-2030 recommends an established standard of transition to practice programs, as a critical priority for new graduate nurses entering the emerging workforce.

## PROGRAM HIGHLIGHTS

### Accreditation

Approved by The California Department of Apprenticeship Standards.

### Learning Strategies

Instruction incorporates online synchronous zoom workshops with real-world clinical application and hands on training.

### Curriculum

Provides 260 Hours of "related supplemental instruction" that supports the new graduate nurse in their new full-time ambulatory role.

### Faculty Support

Program faculty ratio of 10:1 allows for dedicated 1:1 coaching, mentoring and professional development.

## RECRUITMENT

The Pilot Cohort will launch in the first quarter of 2022 and focus on supporting new and experienced licensed nurses in the Ambulatory Care practice specialty. HealthImpact is recruiting (10) registered nurses in the following specialties:

- ✓ School Health Nursing
- ✓ Public Health Nursing
- ✓ Primary Care & Specialty Care

## CALIFORNIA PARTNERS

The HealthImpact Ambulatory Care RN Specialty Apprenticeship Program is funded through a Workforce Accelerator Fund Grant in collaboration with:
