

Respect Reliability Resilience

2019 Hospital Quality Institute
Conference
Oct. 14 – 15, 2019, Sacramento

Under bright lights, on the court, for thousands to see ... great athletes challenge their minds and bodies, achieving ever-increasing levels of performance through a culture of respect, professionalism and teamwork. Hospital professionals are no different. Doctors, nurses and care specialists of all stripes fight tirelessly to improve care reliability and value for each patient.

In the spirit of this great endeavor, join us at Sacramento's Golden One Arena on Oct. 14 – 15 for the HQI Annual Conference. Experience inspiration, interactive learning and networking opportunities, and take home transformative tools and strategies to improve outcomes and save lives.

DAY 1 | MONDAY, OCT 14

Day one is a full day of keynote speakers at the top of their game. Get ready to be inspired by what you will learn.

Thriving vs. Surviving During Times of Change: The Science of Enhancing Resilience

J. Bryan Sexton, PhD
Duke Center for Healthcare Safety & Quality

C. Duane Dauner Quality Award

Celebrate the winner and the finalists of the C. Duane Dauner Quality Award with special presentations showcasing their achievements and lessons learned.

DAY 2 | TUESDAY, OCT 15

Day two is a half day that features nine breakout sessions — which will you choose to attend?

- Addressing racial disparities in maternal outcomes
- Reducing opioid overdoses and improving transitions to community-based treatment
- Shattering the wall of silence in patient harm with "CANDOR"
- Understanding data variation to know if and when to initiate action
- Shifting from theory to implementation in QI change management
- Addressing implicit bias in health care and lessons learned
- Using patient and family-centered rounds to improve engagement and reduce harm
- Exploring upcoming OSHPD analytics and products, including social determinants of health and cost data
- Preventing delirium and post-intensive care syndrome with the A-F Bundle
