Designed for health care safety and security officers, this is a three-day, eight-hour course based on International Association of Healthcare Security and Safety, or IAHS, curriculum. The course is intended to build basic training and skills for health care security officers. The student will apply the tools and techniques learned in the course to take and pass the IAHS Basic Healthcare Security Officer Certification exam.

Course Objectives

At the end of the course, participants will be able to:

- Understand the basic principles of health care security, security skills procedures and techniques
- Carry out the role of a security officer in a health care organization and implement protective measures
- Initiate health care safety and emergency management procedures
- Communicate the role of the health care security officer and legal issues involved in his or her role

Who Should Attend?

Health care security and safety officers looking to reach a higher level of professionalism and service through learning the skills necessary to take and pass the IAHS basic level certification test.

What's Included?

Registration fees include three full days of instruction, breakfast, lunch, course materials, IAHS Basic Training Manual for Healthcare Security Officers, certificate of course completion and proctored IAHS basic level certification test.

Faculty

David ‘Kawika’ Feltman, CHPP, ILO, TLO, is currently the Director of Security for Adventist Health White Memorial based in Los Angeles and is responsible for the overall management and oversight of the hospitals safety and security programs. Feltman is a Certified Homeland Protection Professional (CHPP), having obtained this prestigious designation from the National Sheriffs’ Association and the National Domestic Preparedness Coalition, through the Global Center for Threat, Risk, and Vulnerability. He currently serves as Region 5 Chairperson for IAHS covering CA, AZ, CO, HI, ID, MT, NV, NM, UT, WY.

Mark Mooring, CPP, CHPA, is the founder of Proper Authorities, a security assessment and training company. Mooring has held various positions within the health care security and safety realm and when called upon acts in the capacity as an expert witness. He holds a master’s of public administration degree from the University of Southern California and has dedicated his life’s work to protection, safety and training.

Juan Pulido, is the Lead Security Analyst at St. Joseph Hospital, has over 10 years as a security practitioner with training, progressive education, and experience in the areas of health care security, law enforcement, military procedures, international high-risk security and risk management consulting. Pulido has a bachelor’s degree in criminal justice, a master’s degree in business management, and is currently working towards his doctor of philosophy degree in global leadership and change.

Christopher Scott, CPP, CHPA, is the assistant security director for Torrance Memorial Medical Center. Scott began his career in security serving in the United States Marine Corps for 15 years, followed by a 5-year stint with the Monroe Correctional Facility as a shift sergeant and squad leader for the facility’s Correctional Emergency Response Team. In 2002, he began his hospital security career as a contract security manager at Kaiser Permanente South Bay Medical Center (Harbor City).

Steven Storbakken, MBA, CHPA, CHEP, HACP, CHEM, CHSP, CHPP, is the director of environmental safety and emergency preparedness for Pomona Valley Hospital Medical Center. He is a published, nationally-recognized expert in emergency management and preparedness. Storbakken was selected to complete an editorial review and chapter update of the IAHS’s *Basic Security Officer Training Manual’s* emergency management chapter. He is also a member of Frontiers in Medicine Editorial Review Panel, Emergency Management Section.

Jonathan Westall, CHPA, CPP, is the director of security services for Huntington Memorial Hospital, with a business management background and a reputation for delivering effective leadership. In this role, he collaborates across multiple functional areas in the definition of security plans and procedures. Westall is an
