

Inland Empire Nursing Workforce Forum: *Addressing the Need for Experienced RNs in Hospital Specialty Areas*

Across Southern California, there's a growing demand for experienced nurses in specialty areas. A 2017 HASC workforce report shows that 93 percent of hospitals experience difficulty in filling RN specialty jobs.

RN nursing programs, hospital nursing, education and HR leaders are invited to join HASC, *HealthImpact*, and the Health Workforce Initiative (Desert/Inland Empire) to explore this issue and recommend solutions to develop a strong and skilled workforce in the Inland Empire.

Oct. 18, 2018
9 a.m. - 1 p.m.

**Molina Healthcare of California Regional Office:
550 E Hospitality Lane, San Bernardino, CA 92408
(1st Floor Conference Room, Aliso Beach Room 1)**

AS AN ATTENDEE, YOU WILL HAVE THE OPPORTUNITY TO:

- Discuss current supply and demand for Specialty RNs
- Identify strategies utilized to address the shortage of Specialty RNs
- Learn more about the HASC/*HealthImpact* academic-practice collaborative model
- Inspire change and action to address current and future nursing workforce needs

THE EVENT WILL FEATURE:

A review of regional workforce trends

Area stakeholders from the health care, workforce development and education fields

A facilitated discussion on how to address future Specialty RN workforce challenges
