Logistics Victory Los Angeles (LoVLA) Provides PPE at Cost

Over the last year, through supply chain optimization and city purchasing expertise, Logistics Victory LA (LoVLA), an initiative of the City of Los Angeles, provided hospitals, first responders and other health care organizations treating Covid-19 patients a clear path to purchasing PPE from the City of Los Angeles at cost.

LoVLA has distributed over

9 million PPE Items

purchased by 245 organizations across the region

Now as the different sectors of the economy re-open or add capacity to their existing operations, LoVLA is looking to offer it's PPE inventory to any interested business or organization.

Under the program, interested organizations request PPE from the LoVLA inventory. Payment must be provided up front. After the payment clears, the customer is notified that requested items are available to pick up at a City warehouse located at the Port of LA complex (San Pedro/Wilmington area). More information is available at **www.lovla.org or by contacting Avin Sharma at asharma@portla.org**

The current LoVLA inventory is as follows:
