

Coming This Month: Quality Measures Graphs

PDS currently gives you the ability to view how your quality measures compare against your self-selected peer group. With our new release this month, you can now view the data in both a tabular and graphical format. For the first time, you can see how your hospital compares to your peers on key quality measures, at the click of a mouse.

Quality Measures Comparison Graphs:

At a glance, see how your quality measures compare to your peer group, as well as to all California PDS hospitals, for several critical clinical areas:

This market analysis will allow you to make calculated and informed decisions as we move into more pay-for-performance contracts. PDS provides the revenue benchmarking and market intelligence you need for empowered contract negotiations, smarter business development, and intelligent strategic planning.

Revenue Benchmarking and Market Intelligence
