

Dear Colleague:

We want to ask you a favor and we think you will eagerly support the request. HASC and Health Care Executives of Southern California, ACHE's regional chapter, are joining forces in offering a four-part educational series, ***PathWays: Healthcare Policy in Action*** this September and October 2018. We invite you to nominate from your organization a high-performing employee – or an “up and comer” who exhibits strong executive potential.

We've all had mentors who guided our early careers in health care. Nominating an employee for PathWays is a great way to lend the same support and encouragement to others seeking the same career mobility.

Sponsorship for a single nominee is \$200. Nominations for the series are due by August 24th, 2018. Nominees need not be current ACHE members, but we believe that upon completing the program, participants will choose to join ACHE. (You may nominate more than one candidate.)

The program outline is attached. We believe the confirmed speaker list reflects the program's high quality.

Action Requested: Please consider a worthy nominee by:

- Completing the attached nomination form and submitting to: earlycareerists@hce-socal.org.
- Completing the electronic nomination form on our website: <https://hce-socal.org/pathways/pathways-nomination-form/>

Nomination forms are due by **August 24th**.

Thank you for considering our personal request to sponsor at least one nominee. (We plan to enroll a maximum of 35-40 candidates.)

More information

What is PathWays? Developed collaboratively by HCE SoCal and HASC, the PathWays program educates early careerists (health care professionals 40 years of age or younger) about key health policy issues and prepares them for the changing health care industry.

Who Can Participate? Early careerists who are nominated by CEOs or C-Suite leaders. First-priority consideration will be given to those early careerists who are ACHE/HCE members.
